

Great News for America

The Constitution, Freedom and Prosperity are Coming Back!

A Book by Gerard Francis Lameiro, Ph.D.

Great News for America is about the critical presidential election of 2016, which is shaping up to be the most profound presidential election since the critical presidential election of 1896, an event that took place 120 years ago.

This book makes ten surprising predictions that are bold and powerful. These are stunning predictions, predictions about America, predictions about the 2016 presidential election, and predictions whose impact go far beyond this election. Indeed, this book predicts some historic events for America that will take place before, during and after the 2016 presidential election. Those events will positively impact America for decades to come.

Great News for America provides insights into America, into its political history, and into its voters and their deeply-held beliefs on morality and freedom. It also clearly shows how voters in America are ultimately in charge; how they expect their political parties and political institutions to act; and how voters will decisively make parties and politicians accountable to themselves.
